

PROTECTIVE SERVICES START DAY 1

Business Suite: Supporting your company's cyber safety at every stage

OVERVIEW

The criminals behind today's cyber threats and identity crimes increasingly target small- and medium-sized businesses (SMBs). That's because those businesses have more money than most individuals but fewer resources to counter cyber attacks than large corporations. Protecting your organization requires outside expertise.

ARE BUSINESSES CYBER READY?

SUPPORT YOU NEED, WHEN YOU NEED IT

With the Business Suite from Sage Security Shield, you get the support you need, even if you're hit by a major cyber attack. In fact, our protection services are available to you before you've even activated your account.

Business dark web monitoring

Continuously scans illegal forums for your business information, such as Employer Identification Number (EIN), domain, D-U-N-S Number and credit card account numbers.

Business credit score and report monitoring

Monitor your business's credit details so you can ensure your business is protected and confidently manage your company's creditworthiness.

Identity restoration and incident response

Access dedicated resolution specialists to restore your business identity if it's been stolen. Have a plan for unforeseen security incidents and get proven support for a fast, effective response.

EASY IMPLEMENTATION

It's easy to get started with our Business Suite. You can upload your employees' information quickly and invite them to take advantage of the benefits of award-winning identity theft and cybersecurity protection.

Dashboard

- Business Company Domain Name and Email Address Found on Dark Web (Jun 27 2024)
- Business Company Domain Name and Email Address Found on Dark Web (Jun 27 2024)
- Business Historical Dark Web Scan (Jun 27 2024)
